Egg Breaker

Type RZ–6

Egg breaker with separate white from yolk function.

The machine imitates human hands work and makes the content of the egg it is not in contact with the shell.

The most hygienic method of breaking eggs is an innovation of OVO-TECH company.

Egg breaker Rz–6 is designed for bakeries, confectioneries, egg processing companies.

Capacity max.: 19 200 eggs/hour

WARNING: Depending on the quality of the egg capacity of separating yolk from white can change.

All machine parts in contact with eggs are made of stainless steel EN 1.4301 (AISI 304).
